David Evans is an elder in Trinity Life Church and the leader of the Leicester Prayer For Israel Group and leads 'Reshet' ('Network') Ministries which networks individuals, churches and groups interested in the biblical significance of Israel

The book aims to be a concise introduction, bringing clarity and clearing up some common misunderstandings. While David has firm convictions on the subject, he seeks to engage with other points of view.

Steve Maltz, author of a number of books on Israel and the Jews and other subjects, says

'There must be hundreds of books published on the subject of Israel and the Jews and you wonder if there is justification for yet another one. In the case of David Evans' excellent little book I believe there is.'

With Christians & Israel- the Heart of the Matter, David has done the Christian world a service by producing a condensed but exhaustive summary of not just the key areas of discussion and controversy, but also a comprehensive listing of other books and websites that will take folk deeper into different aspects of the subject.

If you're looking for a place to start in tackling this complex and difficult subject then this book could fit the bill.'

Anyone not attending can still order the book (at £7.99) by contacting David on...
